

Displaced Talent for Europe

DISPLACED TALENT FOR EUROPE

QUARTERLY UPDATE

OCTOBER - DECEMBER 2023

Displaced Talent for Europe (DT4E) is a pioneering initiative addressing labour market shortages by enabling high skilled individuals and their families, seeking international protection, to secure a sustainable future. DT4E does this by connecting these professionals, displaced and living in Lebanon and Jordan, with employers across diverse industries in Ireland in the public and private sector.

Thanks to our National Stakeholder Group!

The DT4E and EU-Passworld teams were delighted to welcome our national stakeholders to one of our regular online meetings in November. This gave us the opportunity to provide updates on the progress of our EU-funded projects. Collaboration with Government departments, State agencies and NGOs is integral to the success of DT4E and we are very grateful for this support in achieving our goals.

Coming Soon - Online Information Sessions

Following on from the success of our in-person employer outreach event in June, we are planning some online events in the first quarter of 2024. This is a great opportunity to get to know DT4E process and how this recruitment pathway could benefit your current or future recruitment needs. If you are interested in attending please contact us at: dt4e@iom.int or follow us on LinkedIn (link below) for updates.

2024

As 2023 draws to a close, we look ahead to 2024 with enthusiasm. We have been working hard on finalising our pre-departure and post-arrival support packages for DT4E hires and their employers as we are due to welcome our first arrivals in the coming months to both public and private sector roles.

Over **75K** registered professionals in the **Talent Catalog!**

Our team offers bilateral meetings and webinars for employers to define a **tailored approach to answer their labour needs:** discussing vacancies, costs, procedures, preferences.

“Having (an) opportunity to potentially help out people that are in need, as well as help the company, just seemed like a win-win.”
